

SMART PARTS

Washable, Reusable Cabin Air Filters

INSTALLATION INSTRUCTIONS PART NO. SP11747

The cabin air filter is located behind the glove compartment.

Installation time: 45 min

- Open hood and disconnect battery ground cable
- Wait two minutes to allow air bag backup system to discharge
- Locate fuse panel on driver's side and remove airbag fuse and set aside in safe place
- Locate the air bag electrical connector on the driver side and disconnect it by lifting up on locking lever
- Open glove box and push in on both sides to release the stops which hold it up, and swing the glove box down
- Locate passenger air bag connector through the opening left by glove compartment and lift up locking lever to disconnect it
- Locate and remove cabin filter access door
- Remove two old filters
- Install new Smart Parts Washable Reusable Cabin Air Filters (squeeze to fit if needed)
- Reverse above steps to reassemble, making sure to reconnect both driver's and passenger's air bag electrical connectors and replacing air bag fuse

This is only a guide. See Owner's Manual and/or your mechanic for exact instructions for your particular model.
