

SMART PARTS

Washable, Reusable Cabin Air Filters

INSTALLATION INSTRUCTIONS PART NO. SP11803

The cabin air filter is located behind the glove compartment.

Installation time: 45 min

- With glove box closed, locate and remove two screws and/or clips and lower glove box finisher at bottom of glove box
- Open glove box
- Locate and remove four plastic screws on the top frame and the screws that secure the glove box latch
- Let glove box swing downward
- Disconnect the glove box light by pushing on the tab and removing. Note: do not disconnect the yellow air bag connector NOR put any tension or stress on those connectors from the hanging glove box
- Rather than disconnecting the yellow connectors, remove the whole connector assembly by squeezing the plastic tabs which secure the assembly to the bracket
- Locate cabin air filter cover. To remove, push down on metal clip on bottom of cover until it pops off.
- Slide the plastic cap up to remove the filter cover from the top
- Remove old filters
- Install new Smart Parts Washable Reusable Cabin Air Filters (squeeze to fit if needed)
- Reverse above steps to reassemble

This is only a guide. See Owner's Manual and/or your mechanic for exact instructions for your particular model.
