

# SMART PARTS

## Washable, Reusable Cabin Air Filters

### INSTALLATION INSTRUCTIONS PART NO. SP11813

The two cabin air filters are located behind the glove box on the right side  
Installation time: 15 min

- Open the glove box. Press inward on the sides so that it opens completely. It will hang by the cord.
- Unclip the wire from back of glove box to allow it to swing all the way down
- Filter housing is on right side (FIG 1)
- Using 10mm wrench, loosen bolt securing filter housing cover. Remove the bolt, and then remove the filter housing cover
- Remove first filter first, then remove the second filter by sliding it to the left first and then pulling out.
- Cleaning the housing before installing the new filter
- Install the first new Smart Parts Washable Reusable Cabin Air Filter by pushing in and then sliding to the right (squeeze to fit if needed)
- Insert second new filter
- Reinstall the housing cover and secure it with the bolt
- Swing glove box up and attach the wire clip. Push inwards on the sides of the glove box, engaging the stoppers
