

# SMART PARTS

## Washable, Reusable Cabin Air Filters

### INSTALLATION INSTRUCTIONS PART NO. SP11815

The cabin air filter is located behind the glove compartment  
Installation time: 10 min

- Open glove box and push inwards on both sides of the glove box to disengage the stoppers on each side
- Locate the cabin air filter plastic cover and unlock it
- Pull out old filter and clean housing
- Install new Smart Parts Washable Reusable Cabin Air Filter (squeeze to fit if needed)
- Push inwards on both sides of the glove box while raising it to re-engage the stoppers
- Close the glove box

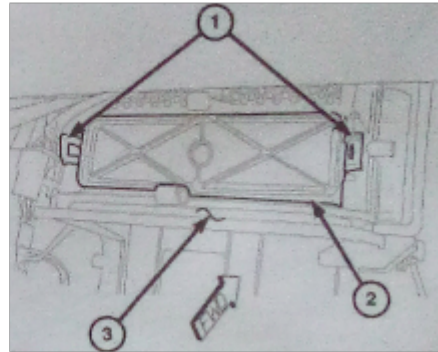

Some models require the following procedure:

- Remove glove box damper on right side of glove box
- Remove panel below glove box assembly
- Remove the panel to the right of glove box
- Remove 4 screws along top edge of the glove box assembly
- Remove 3 screws securing lower panel of the glove box assembly. One screw is located in the center behind the box. The other 2 screws are located on the lower left and right hand corners.
- Making sure not to disconnect any of the wires, pull out the glove box assembly

*This is only a guide. See Owner's Manual and/or your mechanic for exact instructions for your particular model.*

- Unlatch and remove the filter housing cover
- Pull out the old filter and clean the housing before installing new filter
- Install new Smart Parts Washable Reusable Cabin Air Filter
- Close the filter housing cover
- Replace rest of glove box assembly by reversing the removal procedure
